

Part 11: Asset Gathering

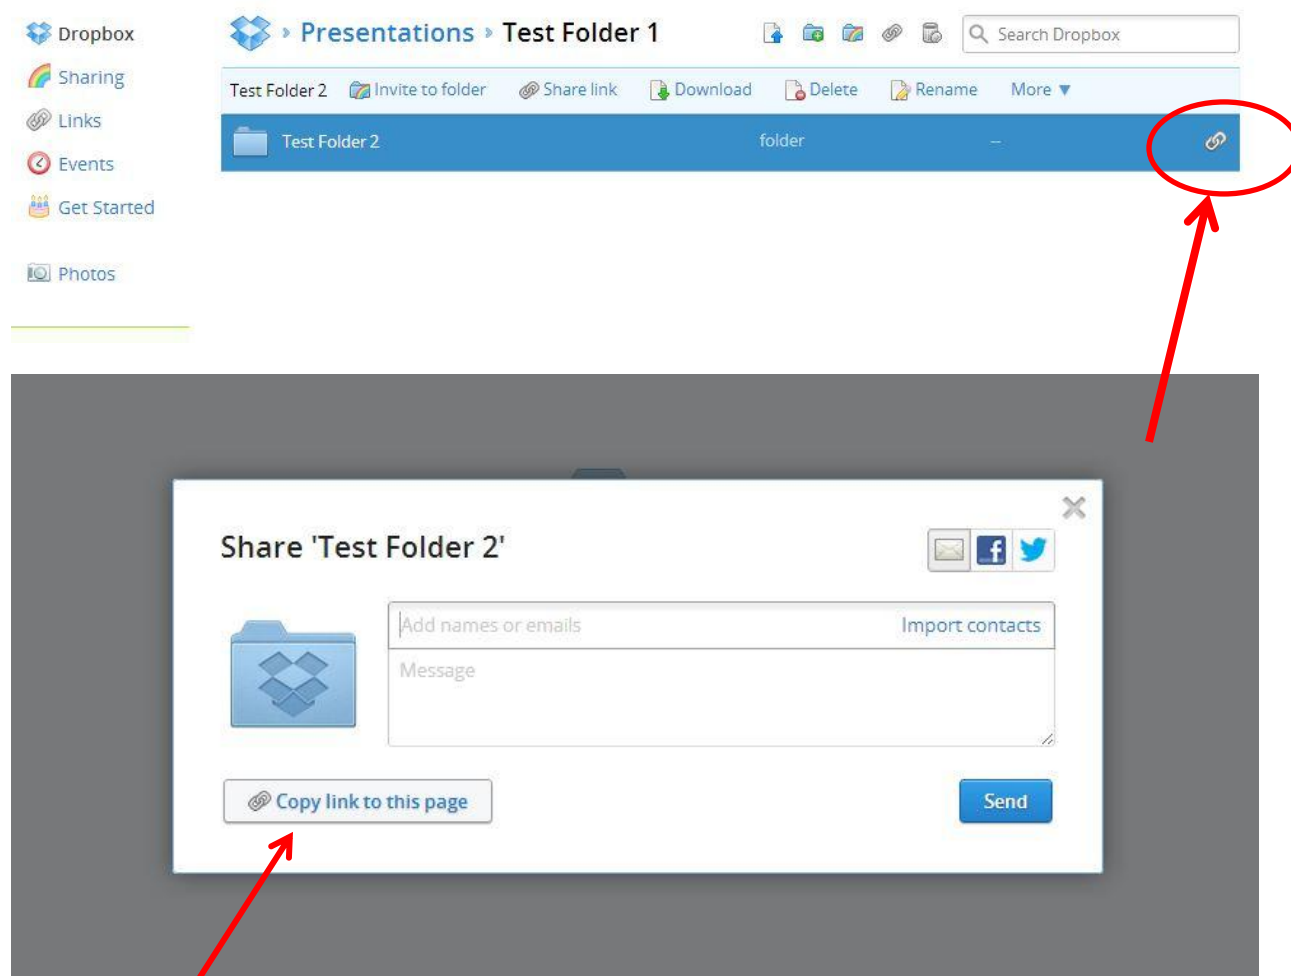

So now that you have everything together for what your business needs to get started, its time to gather all those assets in one place where we can access them. You are going to sign up for a free service that will allow you to upload all your photos.

Go to this site and register:

<http://db.tt/8EYwfRnI>

You can then download the application to your computer, it then creates an online storage center. It should be enough to store everything for this project.

Once you have uploaded everything into the storage space you will share that folder with me so I can download it all.

Email the link to me so that I can access the files.
